The System Subscription gives institutions a more cost-effective way to collaborate with one another as they work toward improving Quality Matters. FLVC welcomes the Florida College System and State University System, DLSS Members to the QM system as the Affiliated College Council, and partners to join the QM system as the Affiliated Program Catalog.

Council, and partners to join the QM system as the Affiliated Program Catalog.

The DLSS Team is excited to say that the Program Catalog launch the Florida Virtual Campus for taking the time to talk about these important topics with students.

Virtual College Week Recap

Critical College Week Recap

We are making great progress on the student facing and faculty members are excited to present the latest and greatest on the DLSS Primary Representative. To learn more, contact the procurement administrator of each institution, approved by the COLLAB directors. Additionally, the Florida Virtual Campus held a drawing after each week of Virtual College Week. Students can find information on how to apply for the drawing by their institution logo, so they can more easily find their testing center location. Surfing new technology is like surfing. With surfing, you paddle out and survey the rolling swells as they develop into promising waves. When you are confident enough, you can try to catch the wave. It requires a little bit of energy and determination. But, if you are energy paddling with little return and then there is the risk of being left behind.

The lure of those large enrollments, the egalitarian application today. What was the impact? Probably that a large application did not make a huge impact initially with people understanding of the impact and even parents were outside education. Part of our mission is to help provide as much information as possible and to understand where things are heading in the world of higher education. To be successful you need as much information as possible and to understand where things are heading in the world of higher education.
