Transfer Evaluation Procedures:

A transfer student is someone who has attended another college or university after graduating from high school. Transfer students are welcome at Lynn University, and every effort is made to make the transfer of credits and completion of the degree requirements as easy as possible.

Applicants with fewer than 12 transferable credits will need to follow the application requirements and submit the appropriate documents for first year students. Official transcripts from the candidate’s current college and from all previous colleges/universities attended are required. High school transcripts are not necessary if 12 or more transferable college credits have been successfully completed with a D- or better. Once all records are received and reviewed, the university will notify applicants of their admission status. Upon admission to Lynn University, students will receive an evaluation of transfer credits provided by the Office of the Registrar.

Transfer credit is awarded for courses successfully completed at a regionally accredited institution or an institution whose accrediting organization is recognized by the Council for Higher Education Accreditation (CHEA). To make the transition to Lynn University as smooth as possible a transfer student may use the Transfer Evaluation System (TES) to locate courses that have been previously approved for transfer from a college/university.

Official transcripts from each institution attended must be submitted in order for the Office of the Registrar to complete a formal transfer evaluation. Courses completed outside of the United States require students to submit an official foreign credential evaluation and translation from a NACES (National Association of Credential Evaluation Services) approved organization along with their official transcripts. Each transfer evaluation is reviewed by the Office of the Registrar and/or appropriate college faculty.

A course evaluated as equivalent to a Lynn course is accepted as that course. A course evaluated as not equivalent is accepted as an elective. A course considered as a developmental level course will not be accepted. If a preliminary evaluation is completed for a student based on an unofficial transcript, the evaluation will not be considered final until official documents are received and reviewed for verification.

Although credits transfer in from other institutions, grades do not. Transfer courses are listed on the transcript with a grade of “T.” A student’s Lynn grade point average is based solely on courses completed at Lynn University.
The following is an outline of the General Education Requirements for all students at Lynn University:

- All students must complete 4 courses in EACH of the following domains for a total of 12 courses or 36 credits:
  - Dialogues of Belief and Reason
  - Dialogues of Justice and Civic Life
  - Dialogues of Self and Society
- Embedded within the above three Dialogues are the following Core Skills and Proficiencies: Critical Thinking and Reasoning, Written Communication, Oral Communication, Information and Technological Literacy
- All students must complete 4 courses or 12 credits in Quantitative Reasoning
- All students must complete 4 courses or 12 credits in Scientific Literacy

### Transfer Equivalencies for the Dialogues of Learning

#### Belief and Reason (12 Credits)
