PROGRAM OF STUDY: ASIAN STUDIES

COLLEGE: Not Applicable

SCHOOL: College of Liberal Arts

DEGREE: Artium Baccalaureus (Bachelor of Arts)
        Artium Baccalaureus Honoris (Honors Bachelor of Arts)

Courses that must be completed at Rollins

Major Requirements:
As specified, except 100-200 level equivalent courses taken at the Community College.

MAJOR REQUIREMENTS

Requirements for the Asian Studies major are: twelve (12) courses, including five (5) from the
history and culture category, five (5) political economy, and two (2) courses in an Asian
language beyond the 100 level. At least six (6) courses must be taken at the upper division (300-
400) level and no more than three (3) courses can be in any single department. Capstone course
may count towards history and culture or political economy categories as a required course. The
required upper division seminar (ASA 400) can be taken only after both of the required lower
division courses (REL 113 and HIS 163) have been completed.

INTERNATIONAL EXPERIENCE

Students are highly encouraged to participate in a semester-long stay in one of the Asian Studies
approved programs or universities, from which a maximum of four (4) pre-approved courses
may be counted towards the major. At a minimum, however, students are required to complete a
seminar course, followed by one (1) academically-based study trip to Asia.

RESIDENCY AND DISTRIBUTION

Asian Studies majors must take all core courses at Rollins (except for courses taken by transfer
students prior to admission to Rollins), and at least one-half of all courses for the major must be
taken at Rollins (no exemption for transfer students). Also, at least one-half of all courses for the
major must be at the 300-400 level.
FOREIGN LANGUAGE REQUIREMENT

To accommodate students with different learning styles and abilities, the foreign language study requirement may be satisfied in one of two ways.

- First, students may take and successfully complete two (2) college-level courses (eight semester hours) or the equivalent in a single Asian language at the intermediate 200 level or beyond.
- Second, the two-course requirement may be waived by demonstrating 'native proficiency' in a modern Asian language, as determined by the Rollins College Department of Modern Languages and Literatures. If the language is not taught at Rollins, the two-course (200 level) requirement may be waived by demonstrating a proficiency in a modern foreign language at the 'advanced' level by passing a standardized test administered by the ACTFL Testing Office. Information and application forms for these tests can be obtained from the Rollins College Department of Modern Languages and Literatures.

Receiving a foreign language waiver does not reduce the total number of courses required for the Asian Studies major (12). Students receiving such a waiver are required to take two (2) additional courses in either the history and culture or political economy categories.

Any biology course from **BIO 210** and above. Courses from the core groupings, other than those used to satisfy the core, may be used as electives.

- Plants play a central role in our biosphere. However, our modern society often fails to recognize the significance of plants in biological systems, the scientific contributions of plant-based research, and the importance of plants in human affairs. Therefore, the department recommends that at least one (1) of the courses taken to fulfill the requirements for a major in biology be a plant-oriented biology course.

**ADDITIONAL REQUIRED ELECTIVE**
Six (6) semester hours

- One course of at least six (6) semester hours selected from the following: PHY 120 or above, CHM 301 or above, PSY 250 or above, MAT 111 or above.

**RECOMMENDATIONS**

Students preparing for graduate programs in biology or professional schools, in health-related areas such as medicine, dentistry, veterinary medicine, or pharmacy need a thorough introduction to chemistry, physics, and mathematics. Therefore, they are advised to take **CHM 221** and **PHY 120** and **PHY 121** or **PHY 130** and **PHY 131**, (a) calculus course(s), and a statistics course. In addition, some professional schools now require biochemistry. The Department of Education offers state-approved academic and field experiences that prepare students to enter the teaching profession. Program completers are eligible for professional teacher certification in the state of Florida.

Students can major in Elementary Education (grades K-6) or minor in Secondary Education (grades 6-12) by completing a selected major in the intended teaching area and the Secondary Education minor.

ADMISSION TO AND COMPLETION OF THE TEACHER EDUCATION PROGRAM

Students must apply for admission to the Teacher Education Program as soon as they declare an Elementary Education major or a Secondary Education minor. Students can find and file applications on the Department's website. The Director of Teacher Education notifies applicants of acceptance or reason for denial. Florida requires that students have a passing score on the General Knowledge Test (GK) of the Florida Teacher Certification Exam (FTCE) to be admitted to any state-approved program.

All students completing a Florida state-approved teacher education program must pass all portions of the Florida Teacher Certification Exam (FTCE), including the General Knowledge, Professional Education and Subject Area Exams prior to graduation, and have an overall GPA of 2.5.

Students must be admitted to the Teacher Education Program before enrolling in courses limited to majors and certification students.

Students register for internships through the Office of Career Services.

INTERNATIONAL EXPERIENCE

INB majors are required to have a direct international experience. This requirement may be satisfied by (a) participating in a Rollins semester abroad program, (b) participating in an INB approved Rollins study abroad course, (c) by experience as an international student studying in the U.S., or (d) by extensive experience living or working abroad at age 16 or older. Students should document their international experience and provide supporting evidence and an essay describing their experience. The INB department director will determine whether or not the international experience satisfies the requirements for the INB major.

LANGUAGE and AREA STUDIES (5 courses): Proficiency in English and at least one (1) modern foreign language are essential for a successful career in international business. Foreign language substitutions do not apply to INB majors. To accommodate students with different learning styles and needs, the foreign language and area studies requirement of five courses may be satisfied in a number of ways. Choose one (1) of the following:

1. Students can compete five (5) courses in language/area studies, with at least one language at the 300 level and at least one area studies course at the 300 level.
2. Students may satisfy this requirement by declaring and completing one (1) of the following majors/minors: French, German, Russian, Spanish.
3. Students may satisfy this requirement by declaring and completing one (1) of the following majors/minors: Asian Studies, Australian Studies, Latin American and Caribbean Studies, Middle Eastern & North African Studies, and Sustainable Development. As long as INB language requirement of at least one (1) language course at 300 level is satisfied. Department of Modern Languages at Rollins offers 300 level courses in Chinese, French, German, Russian, and Spanish.
4. The foreign language requirement may be waived by demonstrating ‘native proficiency’ in a modern foreign language as determined by the Rollins College Department of Modern Languages and Literatures or by passing a standardized test administered by the ACTFL Testing Office. Contact the International Business department director for more information.
Receiving a foreign language waiver does not reduce the total number of courses required for the International Business major. Students receiving such a waiver are required to take five (5) area studies or other language courses with at least two (2) at the 300-400 level.

The courses must be conducted in that language, with the purpose of achieving reading and conversational proficiency (courses in translation may not be counted). If either intermediate level course is waived, an appropriate 300- or 400-level course will be required.

The two-course requirement may be waived by demonstrating 'native proficiency' in a modern foreign language, as determined by the Rollins College Department of Modern Languages and Literatures (this applies to languages taught by the Department of Modern Languages and Literatures). If the language is not taught at Rollins, the two-course requirement may be waived by demonstrating a proficiency in a modern foreign language at the 'advanced' level by passing a standardized test administered by the ACTFL Testing Office. Information and application forms for these tests can be obtained from the Rollins College Department of Modern Languages and Literatures. Receiving a foreign language waiver does not reduce the total number of courses required for the international relations major (14). Students receiving such a waiver are required to take two additional courses from the lists of approved courses in international relations (political science, history, economics, and cultural area studies). The international relations major does not grant waivers, exemptions, or substitutions for the two-course foreign language requirement to students who do not have proficiency in English and at least one other modern foreign language.

POS 2112 State and Local Government

MAJOR REQUIREMENTS

To complete the major in Political Science students must pass eleven (11) courses, plus an additional politics practicum. Subject to approval by the department chair, this requirement can be met with an internship (POL 397), political/policy employment experience, study abroad or field study courses, student-faculty collaborative summer research, or a community engagement component attached to a course.

Students must complete five (5) required Core courses and six (6) additional courses. Students may count their RCC course or one Neighborhood course, if the professor designates it as such, but may not transfer more than three (3) courses from another institution. Winter intersession courses do not count toward the major. The Department requires that students complete one (1) upper-level course in at least two (2) different subfields for breadth.

HONORS IN POLITICAL SCIENCE

Students who satisfy the College's requirements for Honors in the Major Field (see "Curriculum and Curricular Requirements," Rollins College Catalogue may graduate with Honors in Political Science through one of the following methods. First, a student pursuing Honors in the Major Field in Political Science must successfully complete and defend an Honors in Political Science Research project under the supervision of a faculty member in the department. Alternatively, students may complete a second senior-year seminar as a twelfth (12th) course in Political Science and defend their research project before a panel of three (3) faculty members, per the curricular requirements of the College. Students in the College Honors Degree Program may use their senior-year research project for Honors in Political Science, with Departmental approval.

CORE COURSES
All students are required to take two (2) introductory courses and three additional core courses
noted below. Students must take either Comparative Politics (POL 100) OR International Relations (POL 130). They must also take either American Politics (POL 160) OR Issues in American Politics (POL 161).

Students are also required to complete Quantitative Analysis (POL 240A) OR Research Methods in Political Science (POL 240B), Political Thought (POL 220), and a senior seminar class at the 400-level that includes the completion of a major research project. It is recommended that students take POL 240A or POL 240B by the end of their sophomore year.

As noted earlier, six (6) additional electives are then required, as well as a practicum, to complete the major. A comprehensive examination and portfolio also are required of all graduating seniors.

WASHINGTON SEMESTER PROGRAM
Through a cooperative arrangement between Rollins and American University, a select number of students, usually juniors, may spend a semester in Washington, D.C., studying public affairs. (See Special Curricular Opportunities section of this Catalogue.)

Participants may select from separate programs in American politics; international law and organizations; sustainable development; journalism and new media; justice and law; public health; foreign policy; religion, politics, peace, and security; and global economics and business. Full-time faculty at American University direct the individual programs.

While enrolled in the Washington Semester Program, students live at American University and have full access to all library, cultural, and recreational facilities on campus. For further information, contact Professor Mike Gunter.

RESEARCH IN POLITICAL SCIENCE
Students also have the opportunity to conduct research in political science. This can be accomplished through a senior year research thesis for Honors in Political Science or as their final research project in their concentration. Students should have strong research and writing skills in order to complete a research project in Political Science.

IMMERSION EXPERIENCE

All SE majors are required to participate in one immersion experience. This requirement may be satisfied by participating in (a) a Rollins Immersion program, or (b) an international service learning experience approved by the SE director. Rollins Immersion exposes students to critical cultural, social, political and structural issues in the community through weekend and weeklong projects of civic and community engagement throughout the academic year. Rollins Immersion is rooted in the academic mission of Rollins to educate students for global citizenship and responsible leadership. Through direct community engagement, leadership development, multicultural education, discussion and pre/reflection activities students will be immersed in the big challenges and questions that face communities in the 21st Century. International service learning experiences also focus on social responsibility and enable students to practice ‘global citizenship’ while engaging in service in a different culture. Students should document their immersion experience, and may be required to provide supporting evidence or write an essay describing their experience.

GLOBAL EXPERIENCE

All SE majors are required to have a global experience. This requirement may be satisfied by: (a) participating in a Rollins semester abroad program, (b) participating in an approved Rollins study abroad course, (c) by experience as an international student studying in the U.S., or (d) by extensive experience living or working abroad at age 16 or older. Students may be required to document their global experience.

RESIDENCY AND DISTRIBUTION

SE majors must take all core courses at Rollins (except for courses taken by transfer students prior to admission to Rollins); at least one-half of all courses for the major at Rollins (no exemption for transfer students); and at least one-half of all courses for the major at the 300-400 level.

The Social Innovation Major

Students complete ten (10) courses from at least three different disciplines, at least five (5) of which must be at the 300-level or above. Students take four (4) core courses: SI 200; a core skills course; a core topics course examining a wide range of social problems; and an independent capstone experience. The capstone experience is a SI project that is pre-approved by a faculty sponsor and the SI program director. Students also select three (3) skills electives and three (3) topics electives. At least one of the courses that a student completes inside or outside of the major must be CE-designated. The Social Innovation major also includes an extensive experiential learning requirement. Students participate in three (3) activities, selected from a range of approved options that involve applied and immersive learning with communities external to Rollins. This major is designed to allow students to build their curricular path around an area of passion, gaining the specific skills and knowledge that fit their interests. During the SI 200 course, all majors create their own curricular plan, identifying the core courses and electives that best address their substantive topic and career interests. Each plan is reviewed by the SI program director, then revised and approved in the junior year.

Students maintain an online portfolio throughout their major that provides evidence from their coursework and documents the completion of the experiential learning requirements.
